To whom it may concern,

In January 2012 Duggan Systems Ltd ordered 96 no double glazed units with manually controlled integrated blinds from Izoglas Poland. These units were installed into 66mm thermally broken aluminium windows manufactured in our premises.

Duggan Systems Ltd would recommend Izoglas for the manufacture of integrated blind units. Their staff were helpful, their turnaround time for manufacture was superb & their finished product was flawless fulfilling both the exacting requirements of Duggan Systems Ltd and of our client Waterford Regional Hospital.

Regards,

Ger Kiely

Purchasing Manager
